

MEET THE RT-2S

The RT-2S is a **compact rooftop tent engineered for crossovers, SUVs or pickup trucks**, where the smaller footprint creates **more space for more gear**. This allows for bikes, boards or even our Slimline Roof Box to be mounted up front.

And despite its compact design, the **RT-2S still offers a great night's sleep**. Heavy **280gsm blackout fabric**, **60mm high-density memory foam mattress** and a dedicated heater vent make the RT-2S an all-season rooftop tent.

The symmetrical design allows for left- or right-hand side deployment in under a minute, creating a generous, comfortable sleeping platform complete with **LED lighting, USB charging and solar-ready wiring**.

Durable, adaptable, and ready for anything – the RT-2S delivers **big comfort in a compact design**.

Compact Footprint

Make more space for more gear and add bikes, boards or our Slimline Roof Box to the cab of a truck.

Fast + Secure

Simple clamshell design goes from travel to sleep-mode in under a minute. Plus, light bedding can be stored inside when closed.

The reinforced flip-out bed section supports up to 150kg for safe, stable use.

Sky Light

Unzip the roof panel to reveal a marine-grade, UV-resistant clear PVC window that's perfect for stargazing.

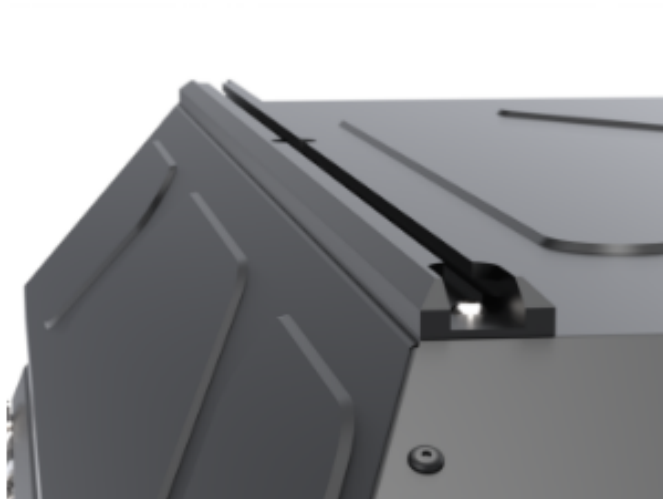

LHS or RHS

The symmetrical shape allows the tent to be mounted for either left- or right-hand side deployment.

Wired

Features solar connectivity, a built-in white LED light and charging ports.

Integrated Roof Rails

For no-drill fitment of load bars, solar panels and other accessories with a 30kg | 66 lbs load rating.

Reflective Flysheet

A silver coating reflects sun, keeping the tent cooler in sunny climates.

Information

Fold-out section load capacity of 150 kg | 330.7 lbs

Pre-wired for solar

White LED light and USB charging ports integrated

The RT-2S is a compact hard shell rooftop tent engineered for crossover SUVs, station wagons, and pickup trucks. Its efficient design preserves crucial roof space for your gear, allowing you to mount bikes, boards, or our Slimline Roof Box on the remaining rack area or truck cab.

Don't let the size fool you, the RT-2S is built for serious comfort. A heavy-duty 280gsm blackout fabric and a 60mm high-density foam mattress ensure a restful night's sleep. With its insulated automotive liner shell, integrated midge nets, and a dedicated vent for heater or air conditioning hookups, this is a true all-season shelter.

The tent's symmetrical design allows for left- or right-hand deployment in under a minute. Inside, you'll find a generous, comfortable sleeping platform complete with integrated LED lighting, USB charging ports, and solar-ready wiring.

Durable, adaptable, and ready for anything, the RT-2S delivers big comfort in a compact design.
